

Introducing more choice for your pharmaceutical needs

At The Home Depot, we are committed to taking care of our people. That's why our benefits plan is introducing more options for your pharmaceutical needs. Starting on July 1, 2016, you may choose to use the Express Scripts Canada Pharmacy or ANY pharmacy to fill your prescriptions. The choice is yours.

You spoke, we listened...

Earlier this year we introduced what we believe to be a better pharmacy experience via Express Scripts Canada Pharmacy. While some of you have expressed concerns, others have benefitted from:

- free delivery
- refill and renewal reminders
- 24/7 on-call pharmacists
- up to a 90-day supply of medication

We have come to realize that one size doesn't fit all. That's why the use of the Express Scripts Canada Pharmacy will no longer be mandatory after July 1, 2016. You may visit ANY pharmacy for your prescription drug needs.

The only difference will be what you pay for the dispensing fee. There is no additional charge to you for the Express Scripts Canada Pharmacy dispensing fee. However, if you decide to use another pharmacy, we will only cover up to a \$7 dispensing fee. You will pay any costs above \$7 out of your own pocket.

Money-saving tip!

Dispensing fees can vary from pharmacy to pharmacy, with big box store pharmacies generally charging lower fees. You may save yourself money by comparing the dispensing fees your nearby pharmacies charge. Dispensing fees may not be posted so ask what they are before you fill your prescription.

Thank you for taking the time to share your feedback. Your opinion is important to us and we are committed to taking care of our people.
